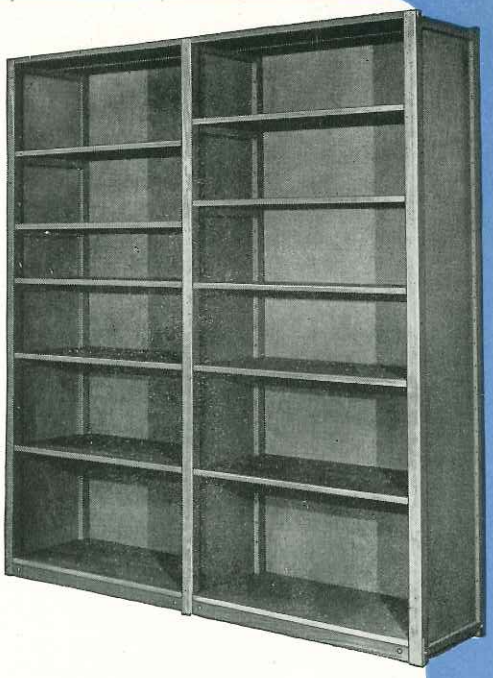
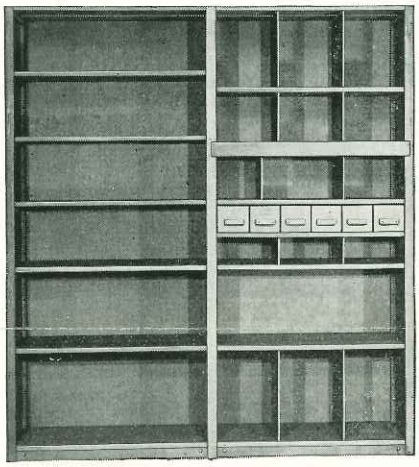
Adjustable SHELVING *Engineered in Wood*

This two section rack of Lyon Adjustable Wood Shelving shows clearly the few basic parts required to make up efficient storage facilities — base rails, uprights, shelves, and tops.

Racks may be had in 36″ width, 84″ or 96″ heights, and 12″, 18″, or 24″ depth. Two piece top, base rails, shelves, lateral braces, shelf bearer arms, and uprights are all high quality hardwood. Panels and dividers are ¼″ plywood. All parts are sanded smooth and finished with a dull, green preservative coating that reduces moisture absorption. Completely adjustable — the only tool needed is a screwdriver



The two section rack at the left illustrates the accessory equipment, including back panels, shelf dividers, bin fronts, and shelf boxes with adjustable dividers. The total cost of this two section rack in 18″ depth is only **$92.95.** (Box dividers extra.)



ALL RACKS ILLUSTRATED AND PRICED ON THIS PAGE ARE 84″ HIGH

Lyon Wood Counters are made in closed type only and are exactly like closed type shelving, plus the pressed wood top surface which is cemented and nailed over the regular two piece top. Counters are made 2 and 3 sections wide only. The complete counter No. W-372—72″ wide, 18″ deep, and 39″ high, illustrated, costs only **$45.86.**

LYON SHOPROBE *Engineered in* WOOD

Throw the average man's hat on the floor and it covers only about 100 square inches of floor area. Yet, that is more floor area than is required for his hat, coat, lunch, etc., when you use the Lyon Shoprobe.

The No. W-31—Double Face (20 person) Shoprobe shown above is 54½" wide, 36" deep, and 75⅞" high, and costs only **$80.17.**

Portable

Because Lyon Wood Shoprobes occupy such a small floor area they are easily moved from one department to another as fluctuation of personnel changes requirements. Lyon Shoprobes stand firmly, and rigidly on their own bases, so it is not necessary to fasten them to the floor or wall.

W-30 SHOPROBE

The single face Shoprobe furnishes ideal clothing storage facilities wherever there is unused space. This unit fills storage requirements for 10 people, yet is 54½" wide, 18" deep, 75⅞" high, and costs only **$45.54.**

Construction Details

Doors are pressed wood. Back of compartment section is ¼" thick plywood. Remainder of unit is hardwood. Assembled with wood screws and moisture resistant glue. Finished in green enamel. Compartment section shipped set up with standards, base, coat rod, and hangers detached.

A pliable, plastic garment cord that attaches to each hanger may be run through the sleeve of the coat and the end padlocked to each individual's compartment. These are extra at only **$.60** each.

LYON CABINETS *Engineered in Wood*

WARDROBE CABINETS

Equipped with one full-width shelf for hat storage and a coat rod that accommodates 10 to 15 coats on hangers.

No. W-14—36" wide, 18" deep, 72" high.....**$35.19**
No. W-15—36" wide, 24" deep, 72" high.....**$38.80**

Top, bottom and frame of Lyon Cabinets are hardwood. Back and sides are hardboard panels. Doors are two hardboard panels mounted over a hardwood frame and attached with three tight-pin hinges. Adjustable shelves are plywood reinforced on 4 sides with solid wood frame.

STORAGE CABINET

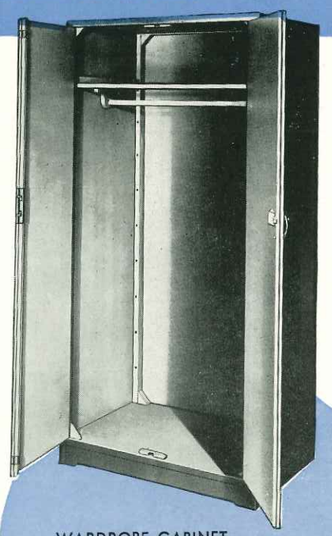
STORAGE CABINETS

Have four full-width shelves adjustable on 6" centers.

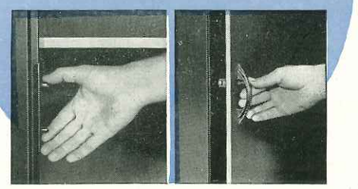
No. W-10—36" wide, 18" deep, 72" high....**$41.30**
No. W-11—36" wide, 24" deep, 72" high....**$45.60**

COMBINATION CABINETS

Have full-width shelf at top and center partition panel below. Left half of cabinet has coat rod for 4 to 7 coats. Four shelves on right side are adjustable. Use card for prices.

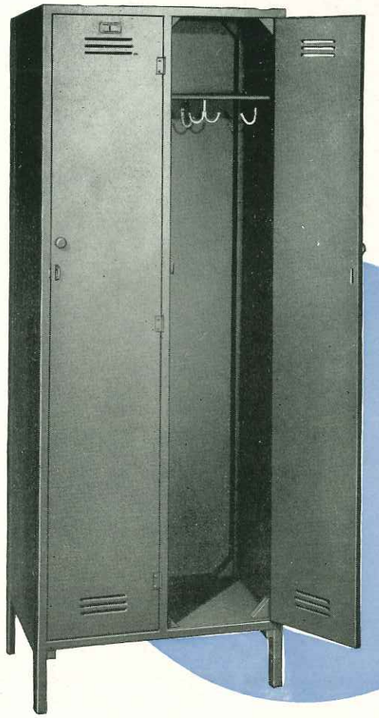


WARDROBE CABINET



Two projection tips control top and bottom locking on left hand door. Right hand door has streamlined handle, thumb controlled latch and built-in lock.

LYON LOCKERS *Engineered in Wood*



DOUBLE TIER

Double tier lockers have a lower cost per opening and require less floor area. Both upper and lower lockers are easy to reach.
